

# Canister Machines

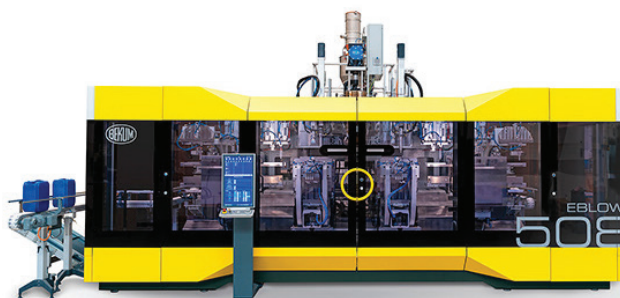

High Output, Full Automation Solutions for Stackable Canister Production

**BA-34.2 High Speed**  
Continuous Extrusion High Speed

**EBLOW 38/D**  
Electric Double Shuttle

**EBLOW 508D**  
Electric Double Shuttle

**BA-25**  
Accumulator Head

# Canister Machines

## Canister Production Capabilities

MACHINE	CANISTER SIZE	PRODUCTION OUTPUT
EBLOW 508D	10 Liter Stackable (400 grams)	300/hour
BA-34.2 / EBLOW 38HS High Speed	20 Liter (900 grams)	240/hour
BA-34.2 / EBLOW 38HS	20 Liter (1100 grams)	150/hour
BA-34.2D / EBLOW 38D	20 Liter (1100 grams)	180/hour
BA-34.2 / EBLOW 38HS	25 Liter (1300 grams)	150/hour
BA-34.2D / EBLOW 38D	25 Liter (1300 grams)	180/hour
BA-34.2 / EBLOW 38HS	30 Liter (1500 grams)	140/hour
BA-34.2D / EBLOW 38D	30 Liter (1500 grams)	170/hour

The above outputs are approximate, depending on material selection and canister design.
